

ROD / BALL MILLS

Marc manufactures a range of Rod and Ball mills sized for metallurgical test work. Construction of the Rod and Ball mills is essential identical, the only differential is the barrel sizes as shown in the technical sheet below.

All units are manufactured to be mounted on a stand and include a screen, funnel and either rod or ball charge.

Optional items include a safety enclosure for the rotating barrel and acoustic sound enclosure for the entire unit.

Technical

Rod Mill Barrel	Nominal Capacity
200 mm diam x 250 mm long	8.0 Litres
250 mm diam x 300 mm long	15.0 Litres
Ball Mill Barrel	
200 mm diam x 200 mm long	6.5 Litres
250 mm diam x 250 mm long	12.5 Litres
