

# Electric Pot Loader

# PRODUCT DATA SHEET

MARC has developed a robust battery operated pot loading system for loading heavy fluxed samples into fusion furnaces within the confined spaces of a fire assay laboratory.

The loader effectively enhances operator safety and reduces fatigue and back injury.

25, 30 and 50 Pot systems are available.

The unit requires a 240v/50Hz power outlet for recharging when not in use.

Electric Pot Loader

Stock Number	Pot Configuration
125088	25
125089	30
125091	50
